The building will be ready on Monday. The bills amounting to \$500 were passed.

LIQUOR CASE IS DISTRICT COURT

In Judge Howell's division of the district court this morning, the jury-men for the September term made their appearance and were examined as to their statutory qualifications. There were only a few who did not respond to their names and the sheriff was able to make an accounting of them, except William Cook, who had not answered service given by mail. The sheriff is of the opinion that he has changed his address. Tyler Bingham had gone to Idaho, P. T. Breen was deaf and could not serve. John Clark was excused because of illness and Postmaster W. W. Browning claimed his exemption.

The first case to be considered was that of Ogden City against Jane Doe Ross charged with selling intoxicating liquor without a license, at No. 24 1/2 Twenty-fifth street, July 12, 1913, appealed from the municipal court. At the trial in the lower court, the woman was found guilty and sentenced to a fine of \$150 or that many days in the city jail. She is a colored woman. The jury empaneled to hear the case was composed of John D. Grace, S. C. Stephens, Joseph Oliver, William M. Ellis, D. Caldwell, E. A. Stratford, Carl G. Edling and William Roy.

At the outset the attorney for the defendant objected to the introduction of any testimony by the prosecution on the grounds that the complaint does not set forth sufficient facts to warrant placing the woman on her defense, contending that the party to whom the liquor is alleged to have been sold should be named in the complaint and that there should be more particulars in describing the nature of the offense and the manner in which it was committed. The assistant city attorney failed to name the party who purchased the liquor, nor is it stated just what kind of intoxicants were bought.

The court agreed with the attorney for the defendant and ruled that the complaint is insufficient, inasmuch as it does not name the purchaser, but the city attorney was permitted to amend by inserting the name of Paul Piper. The case is now being heard.

Marriage Licenses—Marriage licenses have been issued to George Walter of Yost and Alice Rose of Ogden and to Lawrence L. Reed and Hazel Dille, both of Holbrook, Idaho.

Transfer of Property—Flora Lucinda Wallace has transferred to J. S. Rees, lots 8 and 9, Wallace Sub-division, Ogden survey. Consideration \$10.

Asks for Divorce—Lydia Ann Chaney has commenced suit for divorce in the district court against David Chaney on the grounds of drunkenness and failure to provide. The complaint alleges that the parties were married May 10, 1909. Mrs. Chaney asks for \$10 a month alimony, costs of suit and restoration of her maiden name, Lydia Ann Brimhall.

Academy Gym—The Weber academy board of directors believes that ground for the construction of the gymnasium may be broken next week as efforts to secure adjoining space are coming to a successful conclusion. It was found that even with the plans changed, the building could not be erected entirely on Academy ground.

Invited to School—Circular letters are being mailed by Principal Henry Peterson of the Ogden High school to graduates of the Weber county schools. The graduates are asked to enroll in the Ogden High school for further work. More than a year ago the board of education arranged to take pupils living outside the city without cost and a number of county students took advantage. Students of Weber county are given all privileges enjoyed by city students in the school.

Logging All Roads—J. D. Larson of the Weber club is to spend the next few weeks logging all roads leading to Ogden, for the Blue book published by the American Automobile association and also for the information of tourists calling at the Weber club. Arrangements have been made for a pathfinder car and chauffeur. His logging will carry Larson as far as Reno, Nev. and north into Idaho and Wyoming.

DOCTOR LEAVES WHEN ARM IS BROKEN

Dr. E. H. Smith will leave for Vienna, Austria, next Saturday to take post-graduate work with specialists in that medical center.

Dr. Smith broke his right arm last Thursday while cranking his automobile at his home. He had intended to leave for Europe this winter but hastened his departure as he has come to the conclusion that a broken arm is a handicap in his profession.

"THE-----CALL" GLOBE

A terrific train wreck, an actual one, showing the clash of engines, the smashing of machinery, the overturning of coaches, the flare, smoke and grim hideousness of such an accident, from a point of view that must have been extremely perilous for the camera men, is the high value of "The Call," Vitagraph's two-part special tragedy at the Globe theatre for four days beginning today and running until Sunday night.

It is brought into account for the elimination of a married man's individuality, so that his wife may suppose him dead and marry the other fellow in a story depicting the same situation. "Her Reputation," Beatrice Demarest Lloyd tells these desecrations what happened:

"He could remember the call for help, the eager press forward, the unintelligent effort, the screams, the horrible things they found, the frenzied sobbing of those who could stand no more, the frantic half-blinded in which he worked as one of the ever-thickening mob of creatures about the unspeakable horror. Into the cool black air the flames leaped with no less crazed appeal than the voices—those voices he would never forget till he was dead, and not then. He was one of a mass of undeservedly tortured humans in hell."

This excellent feature at the Globe theatre for four nights with matinees daily except Sunday, 10 cents, children 5 cents.

MARBLE IN THE BIG KIESEL BUILDING

Slight changes in the plans for the interior of the Kiesel block on Hudson avenue and Twenty-fourth street were made and marble will be used instead of tiling in a number of places. Staircases will be trimmed with marble and other decorations will be of that material. The contract has been let to the Vermont Marble company.

Manager W. A. Larkins states that by tomorrow or next day the concrete mixer at the Eccles building will be on the first floor of the structure and gravel will be hauled over the floor in carts to the machine. This will obviate the use of the street for mixing concrete for the remaining seven floors.

Immediately after the Nye store is vacated, the razing of the building will start and it is expected that steel construction on the annex will begin October 1.

CLARK ESTATE IS VALUED AT \$38,140

Yesterday afternoon Mrs. Romania Clark, widow of the late Isaac Clark, filed a petition in the district court asking that letters of administration be granted to her, Isaac, waiting her right to administer the estate. Mrs. Clark also petitioned the court to appoint herself guardian of her minor son, Darrell G. Clark. Both petitions will be considered September 15 by Judge James A. Howell.

The petition for letters of administration relates that Mr. Clark died intestate August 26, 1913, leaving an estate valued at \$38,140, the heirs-at-law being Mrs. Romania Clark, the widow, and Isaac G. Clark, Mr. Clark's son, Darrell G. Clark, Mr. Clark's son, and Mrs. Clark's daughter, Vera D. Clark and Darrell G. Clark, children.

Mr. Clark's estate consists of real and personal property in Ogden and Weber county.

IMPROVING THE OVERLAND TRAIL

The Weber club received information from Salt Lake yesterday to the effect that the state road commission has released a levy for the improvement of the state road extending from Devil's Gate in Weber county, about four miles in the direction of Ogden. The funds were raised last year when a three-mile levy was assessed upon the residents of that district in Davis county. The work of improving the road will be started at once under the supervision of State Road Commissioner J. W. Jensen and the commissioner of Davis county.

The Weber club received the news with pleasure as it means the improvement of part of the Overland trail.

GEO. WASHINGTON PLACED IN JAIL

George Washington was arrested at 7:20 o'clock this morning and is now in the city jail with a charge of drunkenness against him. Although the man was so drunk he had to be carried from the patrol, he revived enough to give his name and declare that he wished to be booked under that name.

Jimmy Martin was also arrested today. He was among the fortunate ones in police court yesterday when he received a suspended sentence. He remained sober twelve hours and began to drink all the beer in town this morning.

JAMES MACK IS ROBBED OF A SUIT CASE

James Mack, president of the Ogden Milling Elevator company, suffered the loss of a suitcase and contents today and as a result he and Detective Wardlaw walked the streets in the hope of finding the thief. The grip was taken while Mr. Mack was in the Pingree bank. Mr. Mack believes a man who left with a companion and woman did the trick.

GRADING ON THE 27TH STREET CAR LINE

Grading for the car line on Twenty-seventh street, from Jefferson to Harrison, was begun today by the Ogden Rapid Transit company, and Manager Kline states that the work will be prosecuted rapidly until the road is completed. The roadbed will be laid on Jefferson avenue, between Twenty-fifth and Twenty-sixth streets, when the Moran company does the paving there.

The Utah Light & Railway company has not yet removed its poles from the center of Twenty-seventh street where building operations have been started, but Manager Kline is of the opinion that it will be only a few days when this will be done.

The roadbed will be placed in the center of the street.

Preparations are being made by the Transit company to furnish extra service to Brigham City on Peach day, September 17, and reduced rates will be offered.

GRAND LARCENY AND HIGHWAY ROBBERY

Charges of highway robbery and grand larceny have been sworn to against Ralph Racker, Ralph Leachy, Frank Powell and George Black. In complaints issued from County Attorney David Jensen's office today. The men will be arraigned before Judge W. H. Reeder at 10 o'clock tomorrow.

The three last named were arrested Monday evening by Detectives Burke and Chambers on descriptions said to have been given by Ralph Racker, previously arrested.

The detectives, who have sworn to the complaints, claim they have sufficient evidence to convict the four of holding up two Chinamen. They also believe the men held up the Sunrise Hand laundry near the Ogden river bridge, on Washington avenue, and suspect them of similar crimes committed in Salt Lake.

According to the police, Racker and Powell have given out the information the other two remaining silent under the bombardment of questions.

LIGHTNING IS CAUSE OF A FIRE

During the height of the electrical storm on Saturday morning, lightning struck the haystack on the farm of James B. Hunter in West Weber causing loss of 40 tons of hay and his barn which was near the stack. Mr. Hunter estimates his loss at \$6000.

Playing a peculiar prank, the lightning struck the point of the two stacks and ignited the dry hay. Had it struck any place else, Mr. Hunter believes the wet hay would have prevented a spread of the flames. From the hay, the blaze spread to the barn.

Neighbors came to fight the flames but no water was available. Their efforts were confined to preventing the adjoining buildings from taking fire. All livestock was removed from the barn before it was destroyed.

THE DANGERS OF EMOTIONALISM
Once all doctors believed the brain was the seat and cause of emotions. Indeed, there are physicians even now that refuse to follow the lead of the experimental psychologists and such practical surgeons as Dr. Geo. W. Crile of Cleveland, who deny that the brain is the birthplace of laughter, fear, happiness, love, hate, envy,

WRIGHTS'

malice, disgust, joy, fatigue and the

Yet no less an investigator than the late Professor William James of Harvard proved that such emotions do not arise in the brain and Dr. John B. Watson of Johns Hopkins University went further and proved that they flow from the lymph nodes and other internal tissue fluids. Recently laboratory workers have shown that the bile causes the blues and itching; the thyroid gland causes fear, trembling and anxiety; the little organs capping the kidneys and called adrenals give rise to the emotion of exaltation, tension and firmness, and each other vital organ has its quota of emotions. Only the brain sends more tingling through your body.

Thus are the positive, dogmatic teachings of the older physicians and pathologists overturned. Reluctant as those of the old school are to admit the new discovery, both as they are to point to the supremacy of the thyroid, pituitary, kidneys, liver and adrenal organs over the brain, the facts are none the less apparent.

Marches now upon the arena of medical and psychological discussion the distinguished surgeon, Dr. George W. Crile of Cleveland. No great medical teacher or noted university authority daunts him. He rushes in where the admiring Osierites fear to tread.

In a series of brilliant experiments Dr. Crile drives home still further the fact that the brain does not incite or originate emotions. Moreover, he proves that not only does the brain fail to start such emotions as fear, worry, anxiety, jealousy, revenge, hope, love and hatred, but further, when those feelings do occur they come from some other part of your anatomy and actually do definite, visible and tangible damage to your brain.

Thus his experiments just reported, ed, not to traditional doctors but to the American Philosophical Society, show that the cells of the brain during the emotion of fright exhibit two distinct types of injury, and these occur immediately after the sentiment of fear has been felt. The most serious effect appears in the brain six hours after the emotion has manifested itself.

Similarly the excitement of the chase or the emotion of exaltation and triumph damages the brain so seriously that one investigator above conclusively that the English suffragettes who pillage, burn, destroy and kill themselves in front of the horses' hoofs or by starvation have previously harmed the brain cells by having great flights of hysteria.

I myself feel no hesitation in ascribing from a microscopic examination of the brains of women and men who have become enthused beyond the normal in morality, religion, poetry, art and various reformations that their emotional exaltation has injured the cells of their brains to an alarming degree.

Fra Savonarola, Carrie Nation, Macbeth, William Sydney Thayer, Dowie, Billy Sunday, Mrs. Emmeline Pankhurst, Charles Larned, Dr. Donald Hoeker, Cagliostro, Mother Edy, John Brown and many others have undoubtedly caused injury to their brain cells by their efforts to effect the reforms to which they devoted themselves.—D. L. K. Hirschberg.
